

Android Devices

- Google Classroom for Android Devices
- Open the Google web browser on your device.
- Click the account icon in the top right corner.
- Click Manage Account and add the child's username and password.
- Follow instructions to add a work profile.
- Once the work profile is installed. Within the work profile in the Google Store install **Google Classroom & Google Meets**. (*please ensure it's the store within the work profile, not your personal profile.*)
- Open Google Classroom and access class.
- Open Google Meets and activate.
- Use Google Classroom and click the video icon to access the virtual classroom.

Apple Devices

- Install Google Classroom & Google Meets from the app store.
- Sign in on both apps separately with your child's login details.
- Within the Google Classroom use the video icon for the class to access virtual classes.

Laptop/PC

- Go to Google.
- Search Google Classroom
- Log into Google Classroom.
- Click on Class
- Click Join to access virtual classes.
